Declassification/Release Instructions on File

DIARY NOTES FOR COLONEL WHITE

A-DD/S *W*

Monday, 26 August 1963

1. At the Executive Committee Meeting this morning:

a. There was considerable discussion of the South Vietnam situation but no items of particular interest to the DD/S.

b. General Carter reported that he had gotten what he described as "the Cannon treatment" over the weekend. Apparently, Chairman Cannon called him at 11 a.m. on Saturday and wanted to have a Committee hearing on our budget at 2 p.m., but called back later and canceled. (Presumably, he couldn't get his Committee together!)

c. [REDACTED] joined the meeting and gave us a briefing on the National Communications System.

4. [REDACTED] of the DD/I Security Staff stopped in to tell me that on 28 August they have made arrangements with the White House Executive Flight Detachment to send helicopters (presumably on twelve-minute notice) out here to pick up any of our executives who have to get to the White House or the executive offices during the demonstration. He has advised the other Deputies of this arrangement and has arranged with the Building Security Office to close off our front roadway if any flights are called for since the front lawn will be used as the landing pad.

5. [REDACTED] alerted me that late Friday afternoon, 23 August, we had received word through the front office from General Blake of the National Security Agency that there had been a serious penetration of NSA. Evidently it had just been discovered that one of their employees who committed suicide

recently had been mishandling sensitive documents, including some which the Agency had sent over. The usual damage assessment will have to be made, and NSA naturally was very much concerned about any publicity which might result.

25X1A 6. I talked with [REDACTED] regarding the need for additional con-  
25X1A6a struction at [REDACTED] during Fiscal Year 1965 in the light of recent decisions regarding  
25X1A auxilliary construction at Langley and acquisition of the [REDACTED] Briefly, 25X1A6a  
25X1A8a [REDACTED] does not feel that any of the functions now being conducted at [REDACTED] 25X1A6a  
25X1A9a could or should be moved into Washington. His only immediate need was for a  
new wing of the [REDACTED] to house more SIGINT support equip-  
ment. [REDACTED] will get in touch with [REDACTED] to find 25X1A9a  
out how necessary this is and how much it will cost. We have until 6 September  
to restore such an item to the FY 1965 budget. *Late - [REDACTED] refats* 25X1A9a  
*This Lab. Wing is in Commo's <sup>64</sup> Budget - no no*  
*change is necessary.*
